

NEEN PERIFORM + PROBE

\$68.00

SKU: PAT-091253723

PRODUCT DESCRIPTION

HOW IT WORKS

1. Use the probe with our muscle stimulator, Pericalm™. This delivers a gentle electrical current to your pelvic floor muscles that tones and strengthens where you need it most.
2. Use the probe with our biofeedback device, Peritone. (It's simpler than it sounds.) The Periform® + probe picks up electrical activity in your pelvic floor muscles. This information is then displayed on the screen. It tells you if you're contracting your muscles and performing your Kegel exercises correctly, or if you're not.

KEY FEATURES

- The shape is smooth, so it inserts gently
- You can stand up or move around while using it
- You can use it with other muscle stimulators or biofeedback devices, not just ours
- It's easy to clean
