

**NICE STRETCH® ORIGINAL****\$128.00 - \$129.00****SKU: NS- 51000-H****PRODUCT DESCRIPTION****Purpose & Benefits of Nice Stretch® Original**

The Nice Stretch® Original is a thoughtfully designed night splint targeted at providing relief and therapeutic support for individuals suffering from plantar fasciitis, Achilles tendonitis, and other related foot and ankle conditions. This device effectively holds the foot in a dorsiflexed position throughout the night, which gently stretches the plantar fascia and Achilles tendon. This sustained stretch helps alleviate morning pain and stiffness, promoting healing and flexibility in the affected areas. The Nice Stretch® Original is particularly valued for its role in preventing the tightening of these tissues overnight, which is a common cause of pain for sufferers of plantar fasciitis.

Features

- **Controlled Stretching:** Maintains the foot in fixed dorsiflexion, providing a continuous gentle stretch that helps reduce pain and promote healing.
- **Bilateral Fit:** This can be used on either the left or right foot, offering versatility and convenience for users.
- **Adjustable Straps:** Features adjustable straps that allow users to customize the level of stretch and ensure a comfortable, secure fit throughout the night.
- **Padded Lining:** Includes a soft, padded lining that enhances comfort, making it easier to wear for prolonged periods, especially overnight.
- **Removable Ice Pack:** This comes with a removable ice pack that can be inserted for additional cold therapy, helping to reduce inflammation and soothe the pain.
- **Non-skid Bottom:** Equipped with a non-skid bottom that helps users maintain stability when walking to and from bed, adding a safety feature that prevents slipping.

Specifications

- **Material:** Durable materials constructed for long-lasting use, with a soft padded interior for comfort.
- **Size:** Available in different sizes to accommodate various foot dimensions.
- **Care Instructions:** Easy to clean; the fabric can be spot cleaned with a damp cloth, and any removable parts like the ice pack are maintained according to manufacturer guidelines.
