

IMAK NON-SKID KEYBOARD WRIST CUSHION

\$50.00

SKU: RS-A10173

PRODUCT DESCRIPTION

Purpose & Benefits of the IMAK Non-Skid Keyboard Wrist Cushion

The IMAK Non-Skid Keyboard Wrist Cushion is meticulously engineered to enhance typing comfort and prevent wrist strain during extended periods of computer use. This innovative wrist cushion is an indispensable tool for individuals who experience discomfort or pain from repetitive typing tasks, such as office workers, writers, and programmers. Promoting a neutral wrist position helps to alleviate pressure on the median nerve, thereby reducing the risk of carpal tunnel syndrome and other repetitive strain injuries. The non-skid base ensures the cushion stays firmly in place, providing stable support that adapts to your typing movements. The IMAK ERGO Wrist Cushion's ergonomic design and therapeutic benefits make it an essential component of an ergonomic workspace, contributing to improved productivity and enhanced overall wrist health.

Features

- **ErgoBeads Filling:** Contains massaging ergoBeads that conform to the contours of your wrists, offering a soothing massage effect to enhance blood circulation and minimize discomfort.
- **Ergonomic Design:** Supports optimal wrist posture, effectively reducing stress on the wrist joints and muscles during prolonged typing sessions.
- **Non-Skid Base:** Features a non-skid base that keeps the wrist cushion securely in place on any surface, ensuring consistent support without slipping.
- **Soft and Breathable Cover:** The cushion is covered with a soft, breathable fabric that keeps the wrist cool and comfortable, preventing sweat and irritation with extended use.
- **Versatile Use:** Compatible with a wide range of keyboard sizes, making it a flexible addition to any computer setup, from laptops to full-sized desktop keyboards.
- **Easy Maintenance:** The wrist cushion is designed for easy care, ensuring long-term cleanliness.

and durability with minimal effort.
