

NOSEY CUTOUT CUP

\$17.00

SKU: H-PAT-1149

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

Nosey cups have a cutout area for the nose! Children can see the liquid as it approaches their lips, so there are no surprises. They can prepare and organise themselves to swallow. These cups enable many children to overcome difficulties with drinking. All nosey cups are BPA free.

FEATURES

- Cutout design allows the user to maintain a proper head and neck position when swallowing, making drinking easier and more safe
- From kids to adults, this product prevents choking or difficulties of swallowing in personal and professional environments
- Professional-grade adaptive drinking aid that is used in hospitals, clinics, and nursing homes for those with special drinking needs
- Made of dishwasher-safe transparent polypropylene that allows the user and caregiver to monitor liquid intake
