

ORNAMIN NON SLIP PLACEMAT - COLOUR OPTIONS

SKU: 620

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

Colourful, non-slip placemats with a special coating on both sides of the mat to stop the mat slipping on the table surface and the plate or bowl from slipping on the mat.

Made of durable polypropylene, the anti-slip property of the top surface is guaranteed to hold dishes firmly and securely, ensuring there is no need to hold the plate while eating. The special coating on the bottom of the mat also prevents the mat from slipping on the table or eating surface.

Easy to wipe clean, the placemat is available in four bright colurs and measures 395 x 275 mm.

Developed in consultation with clinical experts and customer needs, Ornamin have developed a comprehensive range of eating and drinking aids that are both functional and elegant. Specifically designed for people living with a diagnosis of Alzheimer's (a form of dementia), this colourful range of tableware is ideal for anyone with cognitive impairment or decreased visual capacity. Many items are also useful for people with impaired mobility or reduced motor skills such as Parkinson's Disease.
