## PRODUCT DESCRIPTION

### PURPOSE & BENEFITS

The Complete Sleeprrr Plus is a larger memory foam neck support pillow. Slightly firmer feel than the original version. For broader shouldered individuals and those who prefer a firmer pillow. A luxurious neck support pillow that features removable foam inserts, giving you as many as 12 simple adjustment options so you can create the pillow that suits your comfort needs.

- Create the perfect pillow for your preferred level of comfort
- Memory Foam PLUS responds to your body's warmth, moulds and shapes to your head and neck
- Encourages the natural alignment of your spine by providing evenly distributed support for optimum comfort
- Designed for those of average to above average sized physiques who seek a full-bodied pillow
- Comes encased in a 'breathing' open weave pillow cover

### FEATURES

- Features 'higher' and 'lower' sides of the pillow as well as contour variance for maximum individual support and comfort for side or back sleeping.
- Contoured design encourages side sleeping to enhance breathing and minimise snoring.
- Scalloped under-edges allow shoulder to slip snugly under pillow for a close-knit fit when sleeping on your side.
- Head and neck are properly cushioned and supported during sleep.
- Designed to help alleviate and avoid neck and shoulder stress and muscle stiffness.

- Memory Foam 'noodles' in corefoam surface can be removed to make for an even softer feeling pillow.
- Can assist asthma sufferers and others who require clear breathing patterns.
- Pillow's contour can help stop snoring by enhancing the airway through encouraging better spinal alignment and side sleeping.
- Channels in core-foam surface, combined with the open-weave inner cover allow air to circulate for a cooler healthier sleep.
- Recommended by chiropractors, physiotherapists, osteopaths, myotherapists and naturopaths.
