

QUAD CANE TIP

SKU: 52008

PRODUCT DESCRIPTION

The quad cane has become very popular as it will provide you with extra stability. It will distribute your body weight between 4 prongs giving you extra confidence to place all your weight on it. Another bonus to transforming your walking stick into a quad cane is you no longer need to lean your stick on something to free up your hand. It will stand next to you removing the risk of dropping your walking stick. You won't have to bend down to pick it up and risk falling at the same time.
