

## RAIZER II - HEADREST FOR LIFTING CHAIR

**\$309.00**

**SKU:** MHLU-10746

## PRODUCT DESCRIPTION

### ACCESSORY FOR RAIZER II LIFTING CHAIR

This headrest is designed as an accessory for the [Raizer II Lifting Chair](#), providing critical head and neck support during patient lifts.

### Purpose & Benefits

The **Raizer II Headrest** offers reliable stabilisation of the head and neck when supporting a fallen person during lifts with the Raizer II chair. This accessory helps maintain proper alignment and comfort, enhances patient reassurance, and frees caregivers' hands—allowing them to operate the lift safely with both arms where needed.

### Features

- Optimises head and neck support to maintain safe alignment during lifting
- Improves comfort and reassurance for the patient during the lift
- Hands-free operation enables caregivers to focus on safe lift control
- Effortless attachment—slides directly onto the Raizer II backrest without tools
- Lightweight and hygienic construction, ideal for frequent healthcare use
