PRODUCT DESCRIPTION

Purpose & Benefits of Redgum Oxygen Bottle Carrier Bag

The Redgum Oxygen Bottle Carrier Bag is designed to provide a convenient and secure way to transport oxygen bottles. This carrier bag is ideal for individuals who require supplemental oxygen therapy and need a practical solution for carrying their oxygen supply while maintaining mobility. It is suitable for use at home, while travelling, or in healthcare settings.

Features

- **Durable Construction:** Made from high-quality, durable materials that ensure the bag can withstand daily use and protect the oxygen bottle.
- **Adjustable Straps:** Features adjustable straps that allow the bag to be comfortably carried over the shoulder, attached to the back of wheelchairs, or affixed to other mobility devices such as walkers.
- **Secure Fit:** Designed to hold the oxygen bottle securely in place, preventing it from moving or tipping over during transport.
- **Multiple Pockets:** Includes additional pockets for storing essential accessories such as tubing, masks, and other oxygen-related supplies, providing easy access to everything required.
- **Ventilation:** Equipped with ventilation panels to ensure proper airflow around the oxygen bottle, maintaining safety and efficiency.
- **Lightweight Design:** The bag is lightweight, making it easy to carry without adding unnecessary weight or strain on the user.
- **Water-Resistant:** The material is water-resistant, protecting the oxygen bottle and accessories from moisture and ensuring durability in various weather conditions.

Specifications

- **Colours:** Blue
- **Overall Length:** 820 mm
- **Overall Width:** 300 mm
- **Max Load:** 20 kg
- **Product Weight:** 0.5 kg

The Redgum Oxygen Bottle Carrier Bag provides a practical and reliable solution for transporting oxygen bottles, ensuring that users can maintain their mobility and independence while having easy access to their oxygen supply. Its durable construction, secure fit, and convenient features make it an essential accessory for anyone requiring supplemental oxygen therapy.
