

REDGUM RUBBER WEDGE RAMPS

SKU: RAMR1415-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

Redgum Rubber Wedge Ramps offer a practical and durable solution for overcoming small steps and uneven thresholds, both indoors and outdoors. These ramps are designed to provide a safe and convenient way to navigate small rises for individuals using wheelchairs, walkers, scooters, or for anyone who requires assistance with mobility.

FEATURES

- **High-Quality Rubber Construction:** Made from tough, slip-resistant rubber, these ramps are designed to withstand heavy use and various weather conditions, making them suitable for both indoor and outdoor applications.
- **Non-Slip Surface:** The textured surface provides excellent traction, reducing the risk of slips and falls, particularly in wet conditions.
- **Versatile Use:** Ideal for smoothing out transitions over thresholds, small steps, or uneven surfaces in homes, offices, and other environments.
- **Portable and Lightweight:** While sturdy, these ramps are also lightweight enough to be easily moved or repositioned as needed.
- **Easy to Install:** No installation is required; simply place the ramp where needed. Its weight and material allow it to stay in place without additional fixings.
- **Gentle Incline:** Designed to provide a gentle slope, making it easier for wheels to roll up and over doorways or raised landings.

Redgum Rubber Wedge Ramps are an excellent choice for those looking for a simple, reliable, and non-permanent solution to improve accessibility. Their durability, ease of use, and effectiveness in providing safe passage over uneven surfaces make them a valuable addition to any space requiring improved access.

SPECIFICATIONS

- Weight: 1.6kg
- Weight capacity: 270kg
