PRODUCT DESCRIPTION

Purpose & Benefits of Redgum Shower Head Holder With Suction Cup Fitting

The Redgum Shower Head Holder with Suction Cup Fitting is designed to offer versatility and ease of use in the bathroom, particularly for individuals who require seated showers or need adjustable shower head positions. This device allows users to easily attach and reposition the shower head at various heights and locations on the wall, without the need for drilling or permanent installation, making it ideal for renters or those in temporary living situations.

Features

- **Strong Suction Cup Fitting:** Ensures a secure hold on any smooth, flat, and non-porous surface, providing stability and reliability.
- **Easy Installation:** The suction cup mechanism allows for quick and easy installation, requiring no tools, drilling, or screws.
- **Adjustable Holder:** Accommodates most standard shower heads and can be adjusted to multiple angles, enhancing the showering experience for users with limited mobility.
- **Durable Material:** Made from high-quality materials that are resistant to wear and tear, ensuring longevity and durability even with regular exposure to water.
- **Portable and Removable:** The portable design makes it easy to remove and relocate as needed, offering flexibility and convenience.

Specifications

- **Specifications**
 - **Overall Dimensions:** 95 mm (W) x 65 mm (D) x 95 mm (H)

- **Product Weight:** 70 grams
- **Maximum Weight Load:** 5 kg
- **Installation Surface Requirements:** Works best on smooth, flat, and non-porous surfaces such as glazed tiles, glass, or fibreglass.
- **Shower Head Not Included**

The Redgum Shower Head Holder with Suction Cup Fitting is an excellent solution for enhancing bathroom safety and accessibility, providing users with the flexibility to customise the placement of their shower head based on individual needs and preferences.
