PRODUCT DESCRIPTION

Purpose & Benefits of the Redgum Space Saver Caddy - Suits Space Saver Shower Chair/Stool

The Redgum Space Saver Caddy is specifically designed to complement the Space Saver Shower Chair or Stool, enhancing convenience and functionality in the bathroom. This caddy provides a practical solution for storing essential bathing items within easy reach, aiding individuals with limited mobility or those who require stability and support while in the shower. It's an excellent accessory that maximises space efficiency and improves the safety and independence of users during their personal care routine.

Features

- **Custom Fit:** Designed to attach seamlessly to the Space Saver Shower Chair or Stool, ensuring a stable and secure fit without compromising the chair's functionality.
- **Easy Access Storage:** Offers compartments and holders for soap, shampoo, and other bathing essentials, keeping them conveniently accessible during shower use.
- **Durable Material:** Constructed from high-quality, water-resistant materials that withstand the humid bathroom environment and frequent exposure to water.
- **Enhanced Safety:** By keeping essentials within arm's reach, it minimises the need for users to stand or reach out dangerously, reducing the risk of slips and falls.
- **Easy to Install and Clean:** The caddy can be easily attached and removed without the need for tools, and its smooth surface makes it simple to clean and maintain.

Specifications

- **Compatibility:** Specifically designed to fit the Redgum Space Saver Shower Chair and Stool models.
- **Dimensions:**
 - Width : 300mm
 - Depth : 95mm
 - Height: 90mm
- **Weight:** 300g

The Redgum Space Saver Caddy is an essential addition for anyone using a Space Saver Shower Chair or Stool, providing a convenient and safe way to manage personal care items within the shower. Its thoughtful design and compatibility make it a valuable tool for enhancing the functionality and safety of bathroom mobility aids.
