PRODUCT DESCRIPTION

PURPOSE & BENEFITS

ResMed's award winning¹ lightweight AirFit P10 for Her nasal pillows mask is a quiet achiever. It offers comfort and reliability at barely a whisper, thanks to its innovative QuietAir™ woven mesh vent. This ultra-quiet vent provides advanced air diffusion technology that significantly reduces disturbance, by gently directing air away from both patients and their bed partners.

A recent ResMed study found that on average, participants wore the mask for 40 minutes longer per night.² What's more; the AirFit P10 is easy to use due to its innovative QuickFit™ elastic headgear which is snug without getting in the way. The result? Patients enjoy a real sense of freedom while they wear the mask.

FEATURES

- **Quieter.** The AirFit P10 for Her is approximately 50% quieter than its predecessor.¹ The QuietAir™ woven-mesh venting that gently directs air away from the patient and their bed partner.
- **Comfortable.** The mask is designed to seal on contact, and allows patients to move around comfortably.
- **Snug and stable.** Dual wall technology seals on contact, while the flexible yet durable flexi-tube offers full freedom of movement without compromising the seal.
- **Easy to wear.** The specially developed QuickFit™ split-flex headgear has engineered two-point force and vector control so that the elastic gently stabilises the mask and pulls the pillows into place.

- **Easy to assemble.** Simple one-click action makes assembling and cleaning the AirFit P10 for Her quick and easy. Key-clip nasal pillows feature colour-coded sizing, and left and right orientation for fast and easy fitting.
