

ROLLZ MOTION/PERFORMANCE - BACK SUPPORT

\$129.00

SKU: 10103

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The flexible back support is a handy addition when using your Rollz Motion in its rollator walker configuration. This accessory provides support to lean on when seated on the rollator walker. Please note that the back support can only be fixed to the frame when the Rollz Motion is operating as a rollator walker. This accessory is compatible with Rollz Motion, Rollz Motion Performance, and Rollz Motion Rhythm models.

FEATURES

- Provides flexible support: Designed to provide comfortable back support when sitting on the rollator walker.
- Versatile use: Ideal for use when the wheelchair package isn't with you.
- Specific attachment: Can be affixed only when the Rollz Motion is used as a rollator walker.
- Broad compatibility: Compatible with Rollz Motion, Rollz Motion Performance, and Rollz Motion Rhythm models.
- Easy attachment: It can be attached effortlessly to the frame of the rollator walker.
- Portable: Light and compact design, making it easy to carry around.
