SKU: 1110-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The award-winning Rollz Motion Walker/Wheelchair is one of a kind. These top-of-the-range 2-in-1 devices will convert from a walker to a wheelchair with just a flick of the wrist. Perfect for those who want to walk but are not sure how far they can go. With their large wheels for superior manoeuvrability and state-of-the-art brakes, these are the ultimate in assisted walking.

FEATURES

- The only convertible walker/wheelchair on the market that meets ISO safety standards for both a walker and a wheelchair.
- This unique transformable function gives you options and confidence to go further - walk or ride when it suits you - it's your choice.
- Innovative and award-winning design - winner of the prestigious Red-Dot design award
- Superior drum brakes suited to wet and dry conditions
- Easily folds into compact and transportable size
- Strong frame and wheels
- Allows you to stand and walk tall, instead of leaning forward
- Safe with superior manoeuvrability supported by large wheels and a short wheelbase.
- Accessories can be purchased in addition to the base unit including a basket for under the seat, a cup holder, a seat belt, a travel cover and more. As you would expect, the wheelchair package and footrests are included in the purchase price

The Rollz Motion Walker/Wheelchair is the perfect mobility aid for anyone who wants to stay active and independent. It is a versatile and stylish option that can be used by people of all ages and abilities.

ROLLZ PERFORMANCE

The Rollz Performance shares all the features of the Rollz Motion but also has:

- Air-filled tyres for all-terrain use (as opposed to a solid PU tyre in the Rollz Motion)
- Ergonomic handles with additional contouring and padding
- Extra padding in the wheelchair seat and a wedged-shaped cushion for comfortable seating
- Reflective stripes
- Extra padding in the armrests and handles to reduce vibration
- The frame is an eye-catching jungle green.

ATTACHMENTS

The Rollz Motion/Performance Walker has a range of attachments available.
