PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Reach 'N Range Shoulder Overhead Pulley from Rolyan is a door-mounted exercise tool that provides an effective platform for resistance exercise that increases the range of motion in the upper body, arms and shoulder.

It is designed with rehabilitation (post-surgery or when recovering from an injury), mobility and prevention in mind. This exercise tool makes it ideal when space is limited or wall space cannot be used for attaching equipment.

FEATURES

- Low-impact workout for upper body, arms and shoulder
- Great for recovery or improving mobility and strength of arms and shoulder
- Ideal for use at home or in the clinic
- Adjustable range of motion (ROM) stop
- It fits standard and thick doors
- Ergonomic Padded handles for easy grip
- Cord length is adaptable so you can use it in standing or seated position
- Compact & lightweight, perfect for on-the-go
- 2 pulleys make it a smooth mechanism
