

SEAL-TIGHT INFINITY LEG CAST PROTECTOR

\$61.00

SKU: ST-29403-H

PRODUCT DESCRIPTION

Purpose & Benefits of Seal-Tight Infinity Leg Cast Protector

The Seal-Tight Infinity Leg Cast Protector is an essential tool designed to safeguard leg casts, bandages, and dressings from water exposure during activities like showering or bathing. This protector helps prevent moisture from compromising the integrity of the cast or bandage, which can promote infection or delay healing. It is particularly useful for individuals who wish to maintain an active and independent lifestyle while recovering from leg injuries or surgeries.

Features

- **Durable Waterproof Material:** Constructed with a high-quality polyurethane film that provides a waterproof barrier that is robust enough to resist tears and punctures.
- **Easy to Use:** Features an innovative ring seal design that ensures a watertight seal without the need for additional straps, pumps, or adhesives. This design makes it easy to slide on and off, facilitating independence.
- **Reusable:** Designed for multiple uses, the protector offers a long-term solution for keeping leg casts dry throughout the recovery period.
- **Comfortable Fit:** The material is flexible and conforms to the leg, providing a snug fit that does not constrict blood flow or compromise comfort.
- **Latex-Free:** Ideal for users with latex allergies, as it is made from a latex-free material to avoid potential skin irritation.
- **Versatility:** Available in various sizes to accommodate different leg sizes and lengths, ensuring a proper fit for both adults and children.

Specifications

- **Material:** Latex-free polyurethane film, known for its strength and elasticity.
- **Size:** Comes in multiple sizes that can accommodate most leg sizes and cast lengths.
- **Care Instructions:** Simple to maintain; just rinse with soap and water and air dry after each use.
