

SHEEPSKIN SHEAR COMFORT CUSHION-IT

\$162.00

SKU: XDPROD

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

- **Portable comfort where needed**

Adjustable hook and loop straps on the back of the Shear Comfort Cushion-It allow for it to be fixed on any seat or chair back to improve seated comfort.

- **At home, at work, or on the go**

Ideal for users who are seated for extended periods. The Shear Comfort Cushion-It can improve a seat by making sitting more comfortable, for longer.

- **Comfort with soft, thick wool**

The Shear Comfort Cushion-It is made from XD1900, meaning extra density wool woven at 1900g per sqm, giving it a consistent soft and thick wool weave throughout for better comfort.

- **Moisture reduction and perspiration regulation**

Wool can wick away moisture from the skin, and each natural wool fibre has air redistribution properties.

- **Machine washable at 80+ degrees Celsius**

The fabric backed material on which the wool is woven makes it easy to wash at 80+ degrees Celsius, making it hygienic.

- **50 washes guarantee**

Shear Comfort targeted protectors have a guarantee of up to 50 washes, before deterioration.
