PRODUCT DESCRIPTION

Purpose & Benefits of the Seal-Tight Shield Shower Patch

The Seal-Tight Shield Shower Patch is specifically designed to provide a waterproof barrier for protecting dressings, infusion sites, catheters, or any wound dressing against water exposure while showering. This innovative product is essential for patients who require a sterile area to remain dry and uncontaminated by water, helping to prevent infections and ensuring optimal healing conditions.

Features

- **Waterproof Protection:** Offers a reliable and strong barrier that prevents water from penetrating and reaching the protected area, essential for maintaining the sterility and effectiveness of dressings and medical devices.
- **Easy Application:** Features a self-adhesive design that is simple to apply directly over the dressing or infusion site, providing a secure seal without the need for additional equipment or assistance.
- **Latex-Free Material:** Safe for individuals with latex allergies, this patch is made from latex-free materials to minimize skin irritation and allergic reactions.
- **Single-Use Convenience:** Designed for single use, which ensures maximum hygiene and effectiveness. Each patch is disposable, making it a convenient option for daily showers.
- **Flexible and Comfortable:** The patch material is flexible, allowing it to conform to the contours of the body and provide a comfortable fit without restricting movement.

Specifications

- **Material:** Made from a durable, latex-free, and waterproof film that securely adheres to the skin.

- **Size:** 5" x 8" size provides 3 ½" x 6" coverage area.
- **Care Instructions:** Disposable after one use;
