

SIMPLY BIG INSTANT HOT WATER DISPENSER - 3L

\$189.00

SKU: HOTWATERDISP

PRODUCT DESCRIPTION

Purpose & Benefits

The Instant Hot Water Dispenser provides a safe, simple solution for quickly preparing hot drinks and meals without the need for heavy lifting or boiling kettles. It is ideal for elderly users, people with arthritis, or anyone who needs a convenient and accessible hot water source.

Water is dispensed at the push of a button, delivering boiling water instantly. Its compact design fits easily on most benchtops, making it perfect for kitchens, tea rooms, and aged care settings. The device also reduces the risk of burns or spills associated with traditional kettles, helping to ensure user safety.

Features

- **Choose your size and temperature:** Select from 200ml, 300ml or 500ml and from 45 degrees to Boiling/100 degrees (*Did you know boiling is too hot for coffee and tea? It extracts bitter and burnt flavours. Now you can choose the perfect temperature*)
- **Simple:** Press one button and within seconds your cup is filled silently
- **Saves space:** The slim design uses 50% less counter space (26×14×30cm)
- **Saves electricity costs:** Only heats one cup as it is dispensed, not the entire tank
- **Saves time:** Dispensed in seconds using RapidHeat™. The removable 3L tank stores 12 cups of water to save time filling up
- **Made by an Aussie company:** Designed and tested from Melbourne
