PRODUCT DESCRIPTION

Purpose & Benefits of SitnStand Lift Assist Classic

The SitnStand Lift Assist Classic is ingeniously designed to enhance mobility and independence for individuals who face challenges in transitioning from sitting to standing positions. This portable lift assist device is perfect for use with any type of chair, armchair, or sofa, and is particularly beneficial for the elderly, individuals with disabilities, or those recovering from surgery. It empowers users to maintain their independence and safety while significantly reducing the risk of falls and injuries.

Features

- **Portable Design:** Lightweight and highly portable, making it easy to move and use in different locations within the home or while travelling.
- **Simple Operation:** Features an intuitive (2-button) remote control, allowing the user to easily adjust the sitting and standing positions.
- **High Weight Capacity:** Supports up to 267 lbs (121 kg), accommodating a wide range of users.
- **Versatile Use:** Compatible with various types of seating, from deep armchairs to sofas, enhancing its utility across different home settings.
- **Comfort and Safety:** Designed to provide a stable and secure lift that mimics natural standing movements, offering comfort and confidence to the user.
- **Durable Construction:** Built with high-quality materials to ensure reliability and durability for daily use.
- **Easy Maintenance:** Comes with a removable and washable cover, facilitating easy cleaning and upkeep.

Specifications

- **Battery Life:** 4 - 7 Days
- **Control Mechanism:** Simple two-button remote for effortless operation.
- **Safe Working Load:** 121 kg

The SitnStand Lift Assist Classic is an essential mobility aid that offers independence and safety to those who need assistance standing up from seated positions. It's a practical solution for enhancing the quality of life for seniors and individuals with mobility impairments, allowing them to live more independently and safely in their homes.
