PRODUCT DESCRIPTION

Purpose & Benefits of the IMAK Smart Glove PM - Universal

The IMAK Smart Glove PM - Universal is meticulously designed to provide nighttime relief for those suffering from wrist pain, carpal tunnel syndrome, and other related conditions. This innovative glove supports the wrist in a therapeutic position throughout the night, preventing movements that could exacerbate pain and impede healing. The glove is engineered to maintain the wrist at a restful angle, reducing pressure on the median nerve and increasing blood flow, which is crucial for recovery and pain relief. It's ideal for those seeking a non-invasive solution to manage and alleviate wrist discomfort during sleep, ensuring a restful and healing night's sleep.

Features

- **Ergonomic Design:** Supports the wrist in an optimal neutral position, preventing stress and strain while you sleep.
- **Breathable Fabric:** Constructed from a soft, breathable material that keeps the wrist cool and comfortable all night long.
- **Padded Palm Support:** Features a padded bead cushion that provides additional support to the palm area, enhancing comfort and ensuring proper alignment.
- **Adjustable Fit:** Comes with an adjustable strap that allows for a custom fit, suitable for various wrist sizes and ensuring the glove stays in place throughout the night.
- **Universal Size:** Designed to fit both left and right hands, making it versatile and user-friendly.
- **Easy to Use and Maintain:** Simple to put on and take off; machine washable for easy care and maintenance.

Specifications
