

SOVEREIGN S6 DOUBLE MATTRESS

SKU: S6D1000

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Sovereign S6 Double Mattress, with its advanced Airoform Gel Immersion Interface layer, is expertly designed to offer unparalleled pressure relief, making it an ideal choice for those seeking a restful and therapeutic sleep experience. This mattress is particularly beneficial for individuals who require additional care in preventing pressure injuries.

FEATURES

- **Advanced Airoform Gel Immersion Interface:** The mattress is equipped with a visco-elastic memory foam layer impregnated with gel particles. This innovative feature not only provides exceptional comfort but also plays a crucial role in pressure injury prevention.
- **Temperature Regulation:** The gel particles within the foam effectively absorb heat from the body, aiding in the prevention of moisture and heat buildup. This temperature-regulating property is essential for maintaining skin integrity, especially for those at risk of developing pressure sores.
- **Optimal Pressure Relief:** The mattress is designed to evenly distribute body weight, significantly reducing pressure on vulnerable areas. This distribution is vital for those who spend extended periods in bed, as it helps prevent the discomfort and risks associated with pressure points.
- **Hypoallergenic and Breathable:** Covered with a breathable fabric that resists allergens, the mattress ensures a clean and healthy sleeping environment, further protecting skin health.
- **Edge Support and Durability:** Reinforced edges ensure consistent support across the entire mattress surface, maintaining its shape and effectiveness over time.

The Sovereign S6 Double Mattress is not just a bed; it’s a therapeutic tool, offering a significant advancement in sleep technology. Its emphasis on pressure relief and temperature regulation makes it an exceptional choice for anyone, especially those needing extra care for their skin and overall health during their sleep. This mattress goes beyond comfort, providing a restorative and protective

sleep experience.
