

STANDER ASSIST-A-TRAY

\$586.00

SKU: 41012

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Stander Assist-A-Tray is a versatile and innovative support device designed for individuals facing mobility or balance challenges. It serves as a combination of a standing aid and a convenient tray table, ideal for use with a chair, sofa, or bed.

BENEFITS

- **Dual Functionality:** Incorporates a sturdy, adjustable tray table and a handle for support, offering a convenient surface for various activities and aid in standing.
- **Ergonomic Safety Handle:** Provides a safe and secure grip, aiding in safely sitting down or standing up, thus reducing the risk of falls.
- **Adjustable Height and Angle:** The tray table can be tailored in height and angle, accommodating activities like eating, reading, or using a laptop.
- **Swivel Tray:** The tray is capable of a 360-degree swivel for easy access and positioning.
- **Sturdy and Stable Design:** Constructed with a durable frame to support a significant amount of weight, ensuring stability.
- **Easy Assembly and Compatibility:** Designed for straightforward installation and compatible with most chairs, sofas, and beds.

The Stander Assist-A-Tray is a key aid for enhancing safety, independence, and comfort in the living space. It is especially beneficial for those with limited mobility or balance issues, making daily tasks more accessible and manageable.
