

STEADY STEP® SOL STEP

SKU: SP-50040-H

PRODUCT DESCRIPTION

Purpose & Benefits of Steady Step® Sol Step

The Steady Step® Sol Step is designed to provide relief and support for individuals suffering from heel pain, plantar fasciitis, or heel spurs. This specialized orthotic device features a unique design that cushions and supports the heel, reducing impact and stress on the painful area while walking or standing. Its shock-absorbing properties help mitigate pain and discomfort, allowing for increased mobility and a quicker return to daily activities.

Features

- **Gel Cushioning**: Incorporates a gel pad in the heel area that absorbs impact and distributes pressure evenly to alleviate pain.
- **Compression Therapy**: Offers gentle compression that improves blood flow to the heel, helping reduce swelling and providing pain relief.
- **Adjustable Straps**: Comes with adjustable straps that ensure a snug fit and prevent the device from shifting during movement.
- **Neoprene Construction**: Made from durable neoprene that is soft against the skin and provides sufficient stretch to accommodate different foot sizes comfortably.
- **Lightweight Design**: The device is lightweight and thin enough to wear under socks and in most shoes without altering the fit.
- **Ease of Use**: Simple to put on and take off, the Sol Step can be used throughout the day during various activities for continuous support.

Specifications

- **Material**: High-quality neoprene with integrated gel pads.

- **Size**: Small, Medium, Large, Extra Large.
- **Care Instructions**: Easy to maintain; can be hand washed with mild detergent and air dried.

The Steady Step® Sol Step is ideal for those looking to alleviate heel pain associated with conditions like plantar fasciitis and heel spurs. Its therapeutic design not only offers immediate pain relief but also supports long-term healing by reducing stress on the heel during daily activities.
