PRODUCT DESCRIPTION

Purpose & Benefits of Thermoskin Thermal Compression Gloves

Thermoskin Thermal Compression Gloves are designed to provide therapeutic warmth and compression to the hands, making them ideal for individuals suffering from arthritis, joint pain, or other hand-related conditions. These gloves offer several benefits to promote comfort, mobility, and pain relief.

Features

- **Thermal Therapy:** Constructed with Trioxon® Advantage material, which captures and retains natural body heat to provide therapeutic warmth to the hands, increasing circulation and promoting healing.
- **Compression Support:** Offers gentle compression to the hands, which helps reduce swelling, inflammation, and pain associated with conditions like arthritis, tendonitis, and carpal tunnel syndrome.
- **Anatomical Design:** Contoured to the shape of the hand for a snug and comfortable fit, ensuring maximum support and compression where needed most.
- **Finger Mobility:** Designed with open fingertips to allow for dexterity and tactile sensitivity, enabling users to perform daily tasks such as typing, writing, and gripping objects with ease.
- **Adjustable Strap:** Equipped with an adjustable strap or closure system to provide a customisable fit and ensure the gloves stay securely in place during wear.
- **Breathable Fabric:** Made from breathable materials that wick away moisture and prevent overheating, allowing for all-day comfort and wearability.
- **Versatile Use:** Suitable for use during various activities and tasks, including typing, crafting, gardening, and household chores.

Specifications
