PRODUCT DESCRIPTION

Purpose & Benefits of Polar Ice TMJ Wrap

The Polar Ice TMJ Wrap is specifically designed to provide targeted cold therapy and gentle compression to the jaw and TMJ (temporomandibular joint) area. This product is particularly beneficial for individuals suffering from TMJ disorders, dental pain, or post-surgical recovery in the jaw area. The wrap helps alleviate symptoms such as pain, swelling, and muscle spasms associated with TMJ disorders and dental procedures. By applying cold therapy directly to the area, it aids in reducing inflammation and promoting a faster recovery while the compression helps stabilize the jaw to prevent further irritation.

Features

- **Targeted Cold Therapy:** Features specially designed gel packs that conform to the contours of the jaw and TMJ area, providing effective, localized cold therapy to reduce pain and swelling.
- **Compression Support:** The wrap includes materials that offer gentle compression, enhancing the benefits of cold therapy by reducing blood flow to the area and minimizing inflammation.
- **Adjustable Design:** Equipped with adjustable straps that allow for a customized fit, ensuring that the wrap stays securely in place and is comfortable for all users.
- **Durable and Reusable:** Constructed with high-quality materials, the gel packs are reusable

and the wrap is durable, making it suitable for long-term use.

- **Comfortable Fabric:** Made from soft fabric that is gentle on the skin, reducing the risk of irritation during extended wear.
- **Ease of Use:** Simple to apply and remove, this TMJ wrap can be used conveniently at home or on the go, providing relief whenever needed.

Specifications

- **Material:** Soft fabric for the wrap, with non-toxic gel packs designed for cold therapy.
- **Size:** Universal
- **Care Instructions:** The fabric wrap can be cleaned with a damp cloth; gel packs should be wiped clean and stored in the freezer when not in use.
