PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Topro Olympos ATR Off-Road Rollator with Backrest is a premium mobility aid designed to handle rough terrains while providing supreme comfort and stability. This rollator is ideal for users who love outdoor adventures but require additional support.

FEATURES

- **Rugged Design for Off-Road Use:** The Olympos ATR is built to conquer challenging terrains. Its large, sturdy wheels ensure smooth movement across uneven surfaces, making it perfect for outdoor excursions.
- **Ergonomic Handles:** The rollator features adjustable, ergonomic handles that provide a comfortable grip, reducing strain on the hands and wrists.
- **Built-in Seat with Backrest:** For moments when you need to take a break, the Olympos ATR offers a convenient and comfortable seat, complete with a supportive backrest.
- **Secure Braking System:** Equipped with an efficient and reliable braking system, this rollator ensures your safety, giving you complete control over your movements.
- **Easy to Fold and Transport:** The rollator is designed for easy folding, making it compact and simple to transport or store when not in use.
- **Sturdy Frame:** The robust frame of the Olympos ATR guarantees long-lasting durability, providing reliable support for users.
- **Spacious Storage:** With its built-in storage solutions, you can easily carry your essentials with you on your outdoor adventures.
