

UPLIVIN TRIVE ROLLATOR

\$695.00

SKU: 31104-H

PRODUCT DESCRIPTION

PURPOSE & BENEFITS

Introducing the Uplivin Trive Rollator, an epitome of innovation and elegance. Portability converges with panache in Uplivin's latest rollator offering, ensuring that mobility doesn't compromise style. With the Trive, stepping out with confidence is no longer a luxury, but a daily reality.

The Trive is a double-folding rollator, specifically designed for the modern user. It seamlessly encapsulates sophistication with affordability, ensuring you get the support you need while flaunting a mobility aid you can be proud of.

FEATURES

- **Ultra-Lightweight Structure:** Weighing just 6.5kg, the Trive boasts an aluminium frame that's not just feather-light but resilient. Derived from the same material used in elite automobiles and the aerospace domain, this rollator promises longevity.
- **1-Step Double Folding:** Transitioning from packed to unfolded (or vice-versa) is a breeze with the Trive's push-and-go or pull-and-pack mechanism. Whether boarding a train or car, the Trive is always ready.
- **Travel-Friendly Design:** For the nomads, we've customized a travel bag tailored for the Trive. Designed thoughtfully, the handle on top transforms the rollator into a pullable unit, reminiscent of a classic golf set.
- **Elegant Leather Finish:** Our commitment to aesthetics and durability finds expression in the PU leather finishing. Adorning the seat, backrest, and shopping bag, this synthetic leather is a sustainable choice - it's lightweight, effortless to maintain, and animal-cruelty free.
- **Ultimate Comfort:** Redefining user comfort, the Trive incorporates silicone rubber handles. Experience a gentle, non-slip grip that's temperature-neutral and always feels welcoming to

touch. Safe, enduring, and hypoallergenic, our handles ensure your hands feel nothing but ease.

- **Versatile Cane Holder:** A meticulously designed 2-part cane holder comes integrated, making it convenient for those who alternate between a rollator and a cane or crutch. With the Trive, everything finds its place.

The Uplivin Trive Rollator - Where Function Meets Fashion.

Step into the future of mobility, where every journey becomes a walk of pride. Choose the Uplivin Trive Rollator.
