PRODUCT DESCRIPTION

PURPOSE AND BENEFITS

Advanced, modern digital dual channel TENS and EMS unit featuring a Remote Switch. TENS and EMS treatment modes provide maximum flexibility for pain relief, muscle strengthening and rehabilitation.

FEATURES

- Digital Dual channel TENS and NMES device
- with remote switch controlled programmes.
- 10 Preset TENS programmes,
- 10 Preset Neuromuscular Stimulation programmes. The wired remote switch control of mA by the patient (to speed up the neuro-muscular re-education) facilitates a range of rehabilitation protocols, including Foot Drop.
- 2 customisable TENS and 1 customisable remote STIM programme.
- Lock mode function for measuring and recording home compliance (mA and total time used).
- Clear bright backlight LCD allows the display to be read more easily in low light or dark conditions.
- Keypad with bigger buttons for ease of use.
- Compact, light and reliable.

ACCESSORIES

- Dual lead wire x 2
- Self-adhesive electrodes (50 x 50mm)
- 9V PP3 battery

- Soft bag
- Operating manual
- Gift box

Warranty: 2 years on Unit
