PRODUCT DESCRIPTION

PURPOSE & BENEFITS

The Vicair Centre Relief O2 is the best choice if you need to completely offload the rectum perineum and coccyx area. By simply removing SmartCells from the centre circle compartment you create a non-contact area. This important feature makes a great difference for persons with localised deep pressure ulcers, rectum or tailbone problems or after perineal surgery. The Centre Relief O2 helps you to sit comfortably and safely, even in the most painful situations

The Vicair Centre Relief O2 is a wheelchair cushion that helps prevent pressure ulcers. It is also a high quality addition to a pressure ulcer treatment plan (stage I-IV).
