

## **VILIM BALL**

**\$599.00**

**SKU: VILIM BALL**

## **PRODUCT DESCRIPTION**

### **Purpose & Benefits**

The **VILIM Ball** is a handheld, AI-powered neuromodulation device designed to provide temporary relief from hand tremors, specifically tailored for people with Essential Tremor or Parkinson's Disease. Using real-time vibration therapy, it disrupts erratic nerve signals and helps reduce tremor for up to 4 hours after a quick 10-minute session, allowing users to regain control and perform daily tasks with greater ease and confidence.

### **Features**

- AI-powered sensors analyse your individual tremor patterns and adapt vibration therapy personalised to you
- 10-minute therapy sessions per hand-deliver tremor relief that lasts up to 4 hours
- Certified as a non-invasive, Class IIa medical device (CE0197) and ISO 13485-compliant
- Compact, lightweight ( $\approx 120$  g, 70 mm diameter) and rechargeable with magnetic charger
- Clinically proven efficacy—70–92% of users report noticeable tremor reduction post-treatment

### **Specifications**

- **Certification:** CE0197 (Class IIa), ISO 13485 Quality Management
- **Therapy Time:** 10 minutes per hand
- **Tremor Relief Duration:** Up to 4 hours
- **Weight & Size:** ~120 g; 70 mm diameter
- **Power & Charging:** Rechargeable via magnetic charger; long standby battery
