## PRODUCT DESCRIPTION

### Purpose & Benefits

The **Vulkan Hinged Knee Support** delivers targeted collateral stabilisation for mild to moderate knee instabilities, including meniscus injuries, ligament strains or post-trauma rehabilitation. Equipped with discreet hinges and a soft-cushioned felt lining, it supports the knee's natural movement while preventing awkward valgus/varus deviation and hyperextension. Designed for stability and warmth, it also helps improve circulation and proprioception—all with comfort in daily wear.

### Features

- Hidden hinges offer lateral support to control knee deviation and prevent hyperextension
- Soft-cushioned felt contours to the knee for extra comfort
- Thermal effect boosts blood circulation and supports healing
- Latex-free 75% neoprene blend with 25% nylon for durability and heat retention
- Easy to use: pull on, align hinges with knee joint, and secure straps for fit

### Specifications

- **Material:** 75% neoprene blend, 25% nylon
