PURPOSE & BENEFITS

The Brolly Sheets Unisex Waterproof Overpant is a discreet and effective solution designed to offer additional protection for individuals dealing with incontinence issues or those who require extra assurance against leaks. Suitable for both adults and children, these overpants are designed to be worn over underwear or diapers, providing an extra layer of security and confidence for daily activities or overnight use. Their unisex design makes them a versatile choice for anyone in need of waterproof protection.

FEATURES

- **Waterproof Protection:** Made with a waterproof material, these overpants effectively prevent leaks, keeping clothing and bedding dry. They are ideal for managing incontinence, nighttime bedwetting, or any situation where additional protection is needed.
- **Discreet Fit:** Designed to be worn comfortably under everyday clothing, these overpants offer a discreet fit, ensuring that users can go about their daily lives without worry or discomfort.
- **Soft and Comfortable:** The material used is soft against the skin and designed to be breathable, reducing the risk of irritation and ensuring comfort for extended periods of wear.
- **Elastic Waist and Leg Openings:** Featuring elasticated waist and leg openings, the overpants provide a snug and secure fit, further enhancing leak protection while ensuring they are easy to put on and take off.
- **Reusable and Durable:** These overpants are machine washable and reusable, making them an environmentally friendly and cost-effective solution compared to disposable options. They are constructed to withstand frequent washing without losing their waterproof effectiveness.
- **Unisex Design:** The simple and practical design is suitable for all genders, making it a versatile

addition to anyone's incontinence management supplies.

- **Various Sizes Available:** To accommodate a wide range of users, the overpants are available in multiple sizes, ensuring a proper fit for children, teens, and adults.

The Brolly Sheets Unisex Waterproof Overpant is an essential item for individuals seeking an additional layer of protection against incontinence. Its discreet design, combined with effective waterproofing and comfort, makes it suitable for everyday use, providing users with security and peace of mind.
